

Charcoalnesia is a premier manufacturer and supplier of high-quality charcoal products. We operate in close collaboration with three trusted manufacturing facilities in Indonesia that provide us with dedicated, exclusive production lines:

First Line: Fully dedicated to premium shisha/hookah 100% coconut shells charcoal.

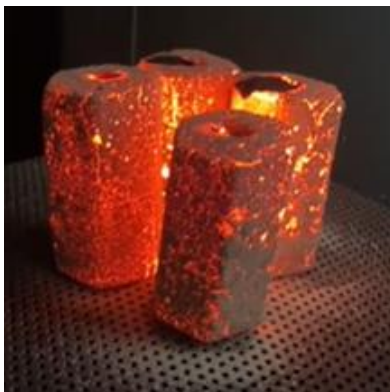

Second Line: Specialized in coconut based charcoal for BBQ/Grill.

Third Line: Dedicated to high quality wood based charcoal for traditional BBQ.

Our premium raw materials are selectively sourced from premium origins in Sulawesi. In addition to finished briquettes, we are fully capable of supplying raw materials that have already been processed into raw charcoal to support other manufacturers and bulk buyers.

To guarantee absolute consistency, our internal Quality Control team, led by Rahmat, directly oversees the entire production. Once an order is processed, our team immediately implements a rigorous on-site quality control inspection from start to finish.

Coconut charcoal BBQ

these briquettes are perfect for barbecue and grilling. Specifically designed for extra long-lasting heat with highly consistent temperatures. This premium product guarantees a uniform burn with minimal smoke and low ash content

Coconut shells charcoal briquettes

Suitable for shisha/hookah

Odorless & Smokeless

100% Eco-Friendly

Ash content 1.68%, moisture 5.98%, burning time 2hours+

raw coconut charcoal materials

already carbonized and ready for further production or bulk processing. Selectively sourced from premium Indonesian origins, our raw charcoal features high carbon content and low moisture.

Perfect for other manufacturers and bulk buyers looking for high-quality raw materials to secure their supply chain.
